

www.equiptoelec.com

All our products are manufactured to our exacting quality standards. We offer the following standard products. Custom modifications are not a problem and many of our products are available on our 5 Day Express shipping program.

HEAVY DUTY CABINETS

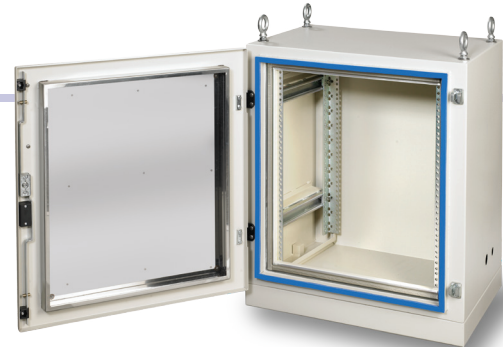

Heavy Duty enclosures are made to take on all challenges and can be modified to meet even the most severe applications.

The Heavy Duty product line is available in both vertical racks and sloped front consoles (15 & 30 degree). It is designed with double ledge, double plane corner construction which make it the strongest cabinet in the industry, capable of carrying 3000 pounds of equipment. Because of this special construction, these racks also offer natural, non-gasketed RFI/EMI shielding characteristics.

N6 SHIELDED/WATERTIGHT NEMA CABINETS

Equipto's high-end shielded NEMA cabinets are designed and constructed to protect valuable electronics that are deployed in harsh environments such as military shipboard transportation and energy industry applications. The N6 goes well beyond the basic NEMA rating and handles the most strenuous shock and vibration conditions.

CHALLENGER CABINETS

The Challenger enclosure offers economy, versatility, modularity and size selection.

It's available in vertical racks, sloped front consoles (15 degree), double slope consoles (30 and 45 degree), low profile frames and bench top racks. It has been value engineered to incorporate quality, performance and interchangeability.

SUB RACK CARD CAGES

Our sub-racks are custom manufactured to meet your particular electronic enclosure requirements. Our wide experience with VME, CPCI and other standards allow you to receive a custom enclosure that easily accommodates standard electronics.

Ka SHIELD CABINETS

Equipto Electronics is now offering Ka-Shield enclosures that protect your Ka Band communications and data from EMI/RFI and EMP. With shielding effectiveness of over 100 dB up to 40 GHz, you can be assured that your equipment is protected against any Equipto's Ka-Shield enclosures will keep your communications and equipment safe and operational.
